Car Show Video

Our Studebaker friends from the Dakotas Chapter of SDC produced a great video of their Studebakers, that includes a 1963 Zip Van, at a February car show in Rapid City South Dakota. The following is the link to that video:

Fozzie Bear's Studebaker Restoration

"A bear in his natural habit—a Studebaker." Who can forget that line from The Muppet Movie? The April '24 issue of TW announced SNM's restoration project by RazorFly Studios of the '51 Commander (pictured below) "driven" by Fozzie Bear. Actually, the car was driven by a human located inside the modified trunk. Regular updates are being posted on social media and a seminar will also be held at the International Meet in Dubuque Iowa in late June. A completion date is set for the summer of next year.

Minutes From the AGM Meeting February 24, 2024

From Secretary Ken Zwicker

Membership Report:

Faye reported we have only 23 paid-up members now and we anticipate unpaid members will renew. She thanked Shelley for her assistance. She has been working on an updated membership roster. Bill thanked Chuck on behalf of all members for a great job. Everyone applauded.

Regional Manager's Report:

Bill thanked Ken for setting up Zoom for today's meeting. He hoped that will continue and that we will have more members who choose not to travel join us at meetings using Zoom.

The Northeast Region Zone meet will be in Syracuse, NY August 15-17 2024.

Correspondence:

Ken reported that all correspondence received since our last meeting has been distributed to the membership by email and by StudeNews.

He will provide one disk to the Secretary for our archives. He is willing to make more copies for anyone who wants one. He estimates the cost, including postage, to be about \$5. He will confirm that. He has only the text from the Sep/Oct 2002 issue and the Jul/Aug and Nov/Dec issues of 2003. He will send Chuck a note to include a request in StudeNews for anyone who has complete hard copies of these three issues.

Atlantic Canada Chapter of the Studebaker Drivers Club Minutes From the AGM Meeting February 24, 2024 From Secretary Ken Zwicker

2024 subscription renewals: Moved by Don, seconded by Wilson that the usual subscriptions recommended by the Executive be approved for renewal for 2024. These are NAACC, Maritime Motorsports Hall of Fame, the Studebaker National Museum Adopt-a-Truck, the NE Zone meet trophy and the International Meet trophy. Carried.

The 2024 meeting and event schedule recommended by the Executive has been distributed in StudeNews Jan/Feb 2024, p. 15. Graham described his suggestion that we include a show'n shine in July in each Maritime province, chosen by the provincial reps, to make it easier for members in the provinces to attend events without having to travel so far. The reps can decide the dates and locations and have the membership advised through the Secretary's emails and StudeNews.

Shelley reported she has set up an email address (atlanticchapter.sdc@gmail.com) that is linked to our Chapter bank account so that electronic membership deposits, including dues and donations, can be deposited directly to that account. Members can go to their bank website, then to the etransfer section, then enter a contact (i.e. her name and the above email address) and then enter the amount. No security question is required. These instructions can be found in the last issue of StudeNews. She hopes as many members as possible will use etransfer as it makes handling payments much easier. She thanked Dale, Tim and Graham for already using the new email.

Graham is going to organize old digital club photos that he has by year and event and put those on CDs, including the photos David previously copied to thumb drives. He asked anyone who has old digital chapter photos to send copies to him, possibly by copying them to a CD, etc.

Studebaker News

Stu Chapman's passing

Bill Jarvis writes:

From the September/October 2018 issue of StudeNews:

Being able to welcome Stu and Thelma Chapman to our special Chapter meeting on August 20 was one of the highlights of my summer. Stu's talk on the final years of Studebaker, and on what "might have been" was very interesting and informative. We are fortunate to hear this from a man who personally was a part of the Studebaker story. Stu is also a past president of the Studebaker Drivers Club Inc. Several members bought copies of his book, "My Father, the Car".

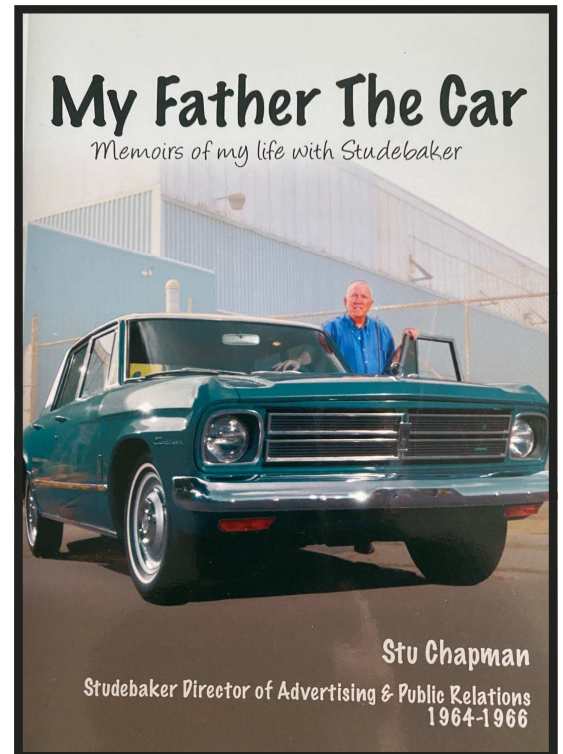

And from a recent email:

Stu Chapman was a fine gentleman. I am very happy to have been friends with him.

Although his time working for Studebaker of Canada was short, about two years I think, his great knowledge and interest lasted for his lifetime. He was the company's last Director of Advertising and Public Relations. It was his job to tell dealers and the public in March 1966 that Studebaker would stop vehicle production.

His interesting autobiography, "My Father the Car", tells of his time with Studebaker.

Stu was a much respected member of the Board of Directors of the Studebaker Drivers Club for several years.

Bill Jarvis on the right with Stu and Thelma Chapman

We were privileged to have Stu and his wife, Thelma, attend a special meeting of the SDC Atlantic Canada Chapter in Sussex in August 2018. Stu gave a very interesting talk.

Studebaker Car Care and Tech Tips

By Jim & Karen McKeever San Joaquin Valley Chapter

Those of us who turn a wrench have all been there before.

The scenario goes like this: The bolts you purchased which hold your project together are sized based on their diameter. You go to tighten or loosen said bolts, so you eyeball the hex head, guessing which wrench to use. Of course, you are under your vehicle, so you ask your assistant to hand you a 1/2 inch.

Assistant goes to the toolbox, brings back the 1/2 inch. That doesn't work so you ask for a 9/16. Assistant goes back to the toolbox, brings back the 9/16. That doesn't work so you ask for a 5/8. Assistant goes back to the toolbox, brings back the 5/8. Now you are lying on all the wrenches, deciding a socket would work better, at which point your assistant has had enough and goes inside.

It turns out the bolt manufacturers must have heard our plight, because they make charts and diagrams specifying the diameter of bolts with their corresponding hex head size.

I printed my chart and placed it in a sheet protector for fear of ruining it with greasy fingers.

There are several websites that offer this information, some with PDF downloads. This chart is nice because it includes both inch and metric sizes for wrenches, sockets, and hex keys. It includes the most commonly used sizes.

Some specialty bolts and heavy hex bolts have their own size charts which are easy to look up online. Of course, there will always be that one stubborn, 75-year-old bolt that is a little worn and defies the recommended wrench size, but every project needs a little excitement.

Restoration & Repair

By Graham Gagne

I've finally got around to the '66. Time to go over the two front doors. I need to remove the lower outside trim and fill the holes, lubricate the regulators (below right) and latches (right), replace the cat whiskers and window runs, clean and paint the door edges and install new seals. The cat whiskers are in two strips (below left). One attaches to the outside of the window opening and the other to the top of the inside trim. They do not come with clips. The original clips are brittle, and the mounting tabs break off when straightened. Even so I couldn't mount the clips through the cat whisker metal backing as I didn't have whatever tool the factory used. So I drilled the clips and trim and used 1/8" short rivets to keep them together. For the cat whiskers on the door panel the factory stapled them through the metal door panel backing. Fortunately, I was able to drill and rivet them in place. At this point I have finished the driver's door (below) and am working on the passenger door. In between I have found and sealed up three of the trunk leaks. A left-over job from when I replaced the rear fenders and repaired the inner trunk corners.
